

# AZIZ JAZZAR

Etudiant ingénieur informatique

## Age

24

## E-mail

jazzar.aziz@esprit.tn

## Phone

+216 52 510 089

## Location

Goulette, Tunisia

## Portfolio

<https://main--azizjazzar.netlify.app>

## GitHub

<https://github.com/azizjazzar/>

## Languages

Anglais, Français ,  
Arabe

## SKILLS

Frontend

React Js

Tailwind Css

Html

Css

Angular

Javascript

Next Js

## ÉDUCATION

### Bachelor's Degree in Computer Science

High School Diploma (2019 - 2020), Graduated with Honors

### Engineering Degree in Computer Science

Private Higher School of Engineering and Technology (2020 - 2025)

## INTERNSHIPS

### Full Stack Web Internship (Plug & Tel, 2024)

- Led a data migration project, transferring critical call data from MySQL to Elasticsearch to significantly boost query performance.
- Improved the structure of Elasticsearch indices for faster data retrieval and optimized storage.
- Developed dynamic, interactive statistics using React.js, providing users with engaging visualizations to streamline data analysis.
- Built dashboards and monitoring tools to track query performance and enhance data insights

### Software Developer Intern – (Wifak Bank, 2022)

- Designed and developed a desktop application using C++ to manage and track employee payment deadlines.
- Created an intuitive user interface with Qt Framework, enhancing user experience and operational efficiency.

## Backend

Spring Boot

Node.js

.Net

Express.js

Mongodb

MySQL

ElasticSearch

## Machine Learning

Python

Java

## Android & iOS

Kotlin

Swift

jetpack compose

## Others

Docker

GitLab

GitHub

Figma

## ACADEMIC PROJECTS

### CollubHub (React.js + Node.js)

- Created an online platform connecting freelancers with clients across various industries.
- Implemented machine learning algorithms to recommend freelancers and projects based on user behavior and preferences.
- Integrated AI-powered chatbots to assist users with inquiries and provide real-time customer support.

### Electrigo (Symfony)

- Developed a sustainable transportation platform for renting electric bikes and cars.
- Users can search, reserve, and manage their rentals with customizable options for duration, vehicle type, and pick-up location.
- Built user accounts to manage bookings and review rental history.

## HOBBIES & INTERESTS

- Paintball
- Padel
- Video Games
